Examiner, Art Unit 2882

### **REASONS FOR ALLOWANCE**

1. Claims 1, 3 and 5-9 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, the prior art does not teach or fairly suggest an apparatus including reconfiguration means, the reconfiguration means determines for each voxel a projection data phase range as an angle between 180 degrees and 360 degrees from projection data obtained at a spiral orbit scan so that a difference in absolute values of cone angles at both ends of the projection data phase range used is minimized, and three-dimension back projects projection data over the projection data phase range determined for each voxel along an irradiation trace of a radiation beam, when taken in combination with the other limitations of the claim. Claims 3 and 5-9 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2882
